

The Orthodox Faith, Worship, and Life, Orthodox Catechism: An outline

Index of all articles

This is a commentary, explanation, and amplification of the book “The Orthodox Faith, Worship, and Life, Orthodox Catechism: An outline.” These notes are intended to be watched or read in conjunction with reading chapters in this excellent book. Sometimes, there are things unsaid that a beginner might not understand, so we have attempted to fill in some of the gaps that we have seen in the catechumens we have taught. This book is very deep, and you should read it slowly and look at the references. One of the problems with books, in my opinion, is they give a reference, but then they don't give you the text. Even when the author shows the text, you might want to look at the context.

This book has an “Old cover”, Left, and a redesigned cover with a painting of Jesus knocking at a door, with an angel. (right)
